

1 Contest in favor of All

Tuesday, 25 August 2009

We want to present/display to them and to offer a project to them in which, and the adolescents of the party of San Martin and Three of February, can simultaneously be contributor and protagonists of proposals that generate changes positive for which today, in our society, they have less opportunities. Our proposal, this time, is to summon them to 1° VISUAL CONTEST "IN FAVOR OF ALL", this one will be the subject of the works that we propose to develop between the adolescents. The same will have to be graphical and must show a positive proposal great the problematic ones that they have the adolescents and young people of our districts, or present/display some task that is being made to fight those situations. It consists of that the adolescents manage to design a publicity or message that invites to the commitment and action on the other. Before different problematic from exclusion and the vulnerability, we aimed to sensitize and to look for together concrete solutions to obtain one more a righter and more human society.
